# ABOUT DR. AMESH ADALJA

---

Dr. Adalja is a quadruple-board certified physician from Pittsburgh. He is known for, and grounds his media commentary on, his extensive knowledge of infectious disease, pandemic preparedness, and catastrophic health events. He developed an infectious disease-focused blog, [Tracking Zebra](#), where he writes frequently on these issues.

## PHYSICIAN

---

Dr. Adalja is a practicing physician board-certified in infectious disease, critical care medicine, emergency medicine, and internal medicine—a unique combination that allows him not only to treat a variety of conditions, in all stages of illness, but also to have an intricate 360 degree view of a medicine.

## COMMENTARY

---

Dr. Adalja's expertise has been featured in multiple media venues and is focused on educating the public on infectious disease threats that incorporates the latest research findings in a manner easily digestible to general audiences.

## SPEAKING & EDUCATION

---

Dr. Adalja also frequently lectures medical professionals, medical students, and other groups on infectious disease issues. He has spoken at NATO and U.S. Department of Defense sponsored international meetings as well as at medical centers throughout the country.

# SPEAKING TOPICS

---

## EMERGING INFECTIOUS DISEASES

---

The threat of emerging infectious diseases is continual and illustrates the major role microbes play in the world. Ramifications of such outbreaks have far-reaching effects on whole nations and industries. Dr. Adalja can guide an audience (lay or medical) to think about these diseases conceptually and strategically.

## INFECTIOUS DISEASES IN HISTORY

---

Throughout history, infectious diseases have shaped civilizations and played important roles in historical events that range from single battles to the collapse of empires. Dr. Adalja can illuminate history with an eye focused on the infectious diseases that populate it.

## BIOWEAPONS AND BIOTERRORISM

---

The threat of bioterrorism has faded from the public consciousness since the events of 9/11, however it persists. Dr. Adalja can discuss all elements of this threat, beginning with its origins in the ancient world through the Soviet Union and to the present day.
